

CMI Octagon
A Sedgwick CMS Company
OCCUNET PREFERRED PROVIDER PANEL

A Message to Our Clients

Your decision to use CMI Octagon's OccuNet Preferred Provider Panel gives significant opportunities for controlling your workers' compensation costs. Our goal is to guarantee each injured worker access to the highest quality, most appropriate health care available in a quality-driven environment. This ensures the injured worker is able to return to work, or to a functional lifestyle, as quickly and prudently as possible.

Our Network members agree to:

- Provide timely medical care
- Return the employee to work as soon as medically reasonable
- Work with CMI Octagon's claim staff to promote modified jobs when appropriate
- Accept CMI Octagon's payment as payment in full
- Adhere to CMI Octagon's medical policies and managed care protocols
- Refer to network specialists and use network hospitals

OccuNet, our Provider Network, is now available to you on-line. Access our most up-to-date Network information as well as mapping capabilities for directions through our website at <http://online.compmgt.com/occunet>. Advantages include:

- Real Time Access
- Ease of Provider and Panel Selection
- Ability to Select Providers by Specialty and Geographical Area

For our Virginia clients, Virginia Workers' Compensation laws require an employer to select a panel of at least three physicians from which the injured employee must choose a treating provider. You should select a geographically dispersed group of primary care and first contact specialists. CMI Octagon provides you with posters for display in the workplace. These posters state the obligation of your employees under the workers' compensation laws and will display the providers you have selected. Please contact our Managed Care department at (804) 673-5900 or toll free (800) 368-8002 for assistance in creating a customized panel.

The information contained in this directory is current as of November 20, 2006. However, it is subject to change as healthcare professionals join our network, move, retire or change their status. Please refer to the OccuNet website for the most current information available or contact a CMI Octagon customer service representative at 1-800-368-8002.
